REMOVAL OF OAA AND ANB MAXIMUMS

The 31st session of the Montana Legislative Assembly enacted legislation permitting the Department of Public Welfare to remove maximums on payments for Old Age Assistance and Aid to Needy Blind effective July 1, 1949. This legislation further provides that the portion of a grant in excess of the federal matching maximum (\$50) is to be paid from state funds exclusively. Similar provisions for Aid to Dependent Children payments have been in effect for almost four years. In ADC, however, excess payments are shared equally by the counties and the state. The new legislation places all three categories on an equal basis from the standpoint of maximum payments and will enable the department to approach the problem of assistance standards more realistically.

The funds made available by the legislature for Old Age Assistance will allow a level of payments at an average of approximately \$52 monthly. Unfortunately, publicity in connection with the removal of maximums erroneously stressed the idea that each recipient of OAA would receive an increase of \$7 effective July 1. This will not be the case. Although the average payment will increase approximately \$7, individual assistance grants will continue to be based upon need as determined by departmental budget standards and the resources of recipients. By such a determination some grants may remain unchanged while others will be increased by varying amounts.

The removal of maximums has placed added responsibility on the state department to accurately determine budget standards and to place limitations upon allowances for individual items of the budget. In line with this the department has resurveyed allowances for the various budget items and has made adjustments wherever it was deemed necessary. Furthermore, the department has recognized the fact that all budget items must undergo continuous scrutiny, study, and revision in order to meet changing conditions.

Under the present maximums most counties have found it necessary to supplement some assistance grants with general relief in order to meet the full needs of recipients. When maximums are removed it is contemplated that almost all the need of categorical recipients will be met from categorical funds and that very little, if any, supplementation from general relief funds will be necessary.
